REVIEW OF PERFORMANCE

There is a drop in sales as compared to the previous year owing to the continuous reorganization in major retail chains. However, there was more focus on rationalization of overheads to ensure lower break-even volumes to run the operations at lower turnover. In the US market, pressure cookers form insignificant part of the total kitchen appliances market. Therefore it is necessary to enter into cookware segment which will enable a larger size market as well as offer an extended distribution for the pressure cooker range. In order to make an entry into the cookware market, the Company has entered into an agreement with a leading celebrity chef, Mr. Rocco Dispirito to market the Company's products under the brand Rocco. These measures are expected to improve the Company's performance in the coming years.

Finance:

Your Company has repaid a loan of Rs. 437.90 lakhs. Your Company is working on various cost cutting methods and the results of this should be seen in the coming year. The Company's equity capital has gone up by Rs. 440.90 Lakhs.

General

Your company's accounts has been drawn up in US Dollars and certified by a Public Accountant (CPA). Based on this Certification, the enclosed financial statements have been cast in line with the requirements of the Indian Companies Act and the results have been restated in Indian Rupees.
